“ I remember when
You'd make that oven chicken with white rice and vegetables, i'd always bug you to make it, it was one of my favorite dishes you would make. And you'd make Halo his tiny lil plate with his three sides not touching each other lol i remember i'd say you should be a professional chef cause of how neat you'd make our plates lol.
You are missed dearly.

“ Frankie.... it really broke my heart to lose you before we got to see each other again. When your Uncle Camilo and I were married, you were just 2 years old. I used to babysit you sometimes and you were the cutest little boy. I used to love the curls on your head. Even though I wasn't a major part of your family, every time you would see me throughout the years, you always greeted me with a hug and still called me Aunt Pat. You and Camille were really close as kids and I would say you and her were Grandma Rosas favorite grandbabies. At least you both were pretty spoiled.

I'm happy you and I reconnected on Facebook and chatted a few times to catch up on life as it passed us by. I'm sad we didn't get to meet again face to face as we both planned to do because we still considered each other family.

Your journey on earth is complete and you left us just so you could be sitting next to Jesus. Your journey in heaven has now begun and we all know you will continue to touch the hearts of you mom, children, and your family. God now carries you.

Rest In Peace. You will be missed by a large family you leave behind. God speed little Frankie.
