“ *Denny was truly a very courageous and wonderful man. He never looked down on anybody, and loved everyone. He has taught our family many things about life, and to never give up. He is very much missed, and still very much LOVED!!  
WE will miss you Dad!*

“ Dennis was so loved by his parents, Margaret and Don, who predeceased him; his sisters, Judy and Jill, who loved, respected and have so many memories to cherish and that will bring comfort in times to come; his beloved children Jon and Ann, and granddaughter, Morgan, niece Betsy and her family, all of whom he adored, who adored, of whom he was so proud, and who brought him much joy.

*The quality of his life was so enhanced with much affection by Tom, Steve and Rick, their wives and children, his brothers- and sisters-in-law, and his beloved mother-in-law, Irene.*

*Dennis and Lynne were so very devoted to each other; Lynne took great and exquisite care of him, no doubt by God's grace adding years to his life. Dennis was blessed to have a large extended family of aunts, uncles and cousins, as well as many good and true friends.*

*Though HE WAS JUST A BOY WHO BECAME A MAN, HE STOOD UP FOR HIS BELIEFS, FOR WHAT WAS RIGHT, FOR LOVE OF COUNTRY, BE MISSED AND LOVED LIVING A LIFE OF VALOR. He will be loved and missed so very much.*

*He was a wonderful brother. His heroes have always been cowboys.....*

“ *Dennis was and will remain an inspiration to me. His quick wit, uncanny memory and love for life were truly remarkable. He has so broadened the way I look at life by just knowing him. Both Doug and I felt we had been blessed to be his friends and neighbors. When someone you love becomes a memory that memory becomes one of your greatest treasures. Until we meet again Dennis!*

RR

“ I worked with Denny from the mid 1980s to about 1999 as an engineering consultant to Kavouras Inc. While I was never an official employee of the company, Denny and I became close friends and eventually I became such a fixture that I was provided an office. In my consulting years I worked on five continents and with many cultures and I never met anyone with the good humor, honesty and integrity that were the core of Dennis Sanford.

After he and Lynne moved to Arizona Denny and I maintained a lively email correspondence that I valued a great deal. His responses were sometimes short, a few sentences that ultimately dwindled to a few words and in the last months to only one or two. But I valued those words because it let me know that Denny was still out there giving life all he could give. Good bye, old friend; I'll miss your frequent messages and your roaring laughter.

And I must acknowledge the dedication and endless care that Lynne lavished on my old friend, Denny. Lynne, there must be a special place in heaven for you. Knowing you and Denny has been a special and rewarding part of our lives. Take good care of yourself now that you have a bit more time.

With fondest regards,

Betty and Dick Reilly

“ *Dear Lynne -- The news of Dennis' death opened up many  
memories of the years of working with him. I liked him so much.  
Those first years were good ones. I wish he (and you) hadn't had to  
suffer as you did with his illness. I hope you can find peace as you  
adjust to life without him.*

*Most sincerely,  
Sherrill*
