“ *You were my "Uncle" for 24 years and we always had a great time. As a young girl you took me to California to Hamilton Air Force base and what an impression all of it made! You took me up into the Air Traffic Control building during an open house and showed me all the radar, etc -. Rescued me from some cute soldiers that followed Karen and I home on our bicycle ride. One summer you and my Uncle Eldon shot frogs down on the bayou and we had our 1st and last frog-leg supper. They were delicious and tasted like white chicken meat but my grandmother hated them as they "jumped in the skillet". I have the fondest memories of you. I was surprised you could play the piano, and your story of flying kites in Ohio on the farm amazed me as you said it was so big you pulled it up into the wind with the farm tractor! I loved seeing your old rifle from your Grandfather who served in the Civil War. I traced your ancestry and it is at Ancestry.com in my file there.*
