“ *Bill thank you so much for many years of of being such a great friend to my dad. We have many great memories of you and nice things you always have done for my family. You and my dad always have shared a close bond and some pretty funny stories! You were a brother to him and can't say thanks enough for always being there for him. You always have appreciated all the little things in life even our tradition of taking you a plate on the holidays. You are going to be very missed and I know your in a better place. Peace and love*
